

Exclusive Program for Women Entrepreneurs: Woman, Lead with Purpose

A transformational 2-weekend experience

Too many women have grown up without validation or had to listen to constant negative words that stole their confidence. Later in life, we try to be “superwoman,” doing everything for everyone but ourselves. We end up exhausted, invisible, and disconnected from our true selves.

This program is a safe and inspiring space to **heal your inner child, break the superwoman myth, and rise as the authentic leader God created you to be.**

In this program you will:

- Heal your inner child: embrace and restore the little girl within you.
- Break free from the “superwoman” mindset and find balance with grace.
- Discover the leader that you are — as the woman you are.
- Learn about emotional intelligence as your greatest ally.
- Design a brand and marketing strategy that reflects your essence.
- Learn simple ways to use AI & ChatGPT to save time and grow smarter.
- Enjoy self-care and movement sessions (yoga, meditation, beauty & confidence).
